THE LAST SAY…

The Hozzle Rockets (1st) and the Old Roosters (3rd) will do battle this Saturday in what is a fitting end to the Club's 4th GPL season. They have only met once during the Home & Away season – on this occasion in round 3 on March 3rd the Old Roosters recorded the "season high" total of 122 to defeat Rockets by 9. On form, the Rockets look to hold a very slender edge going into this week's clash - their last 3 outings have netted them 332 points at an average of 110.67 versus the Old Roosters who have scored 331 at an average of 110.33. The Rockets definitely hold the edge in experience having played in the Winter 2015 and Winter 2016 GPL Grand Finals, winning the 2015 clash. A win this week will see them become the first dual Premiership franchise here at Montuna. Despite this being their first Grand Final appearance the Old Roosters are experienced campaigners playing in all 4 GPL seasons at the Club, with this season being their best performance to date irrespective of this week's result. They recruited well in the off season and even though they enter this week's big clash as underdogs, they will be quietly confident of securing their first ever jug! Either way this week's Grand Final is evenly poised and should go down to the wire!
